Response	London N	Leeds N	% of total
Very well	1	1	5%
Well	13	6	50%
Somewhat	9	6	40%
Slightly	2	0	5%

Comments Summary:

LONDON (26/02/13)

Most Useful Aspects:

- Meeting others and networking
- Hearing other sites progress
- Pragmatic solutions and ideas
- Opportunity to ask questions

Least Useful Aspects:

- Hearing from services using bespoke systems
- MegaNexus not here to discuss

Other Comments/Suggestions:

- Would be useful to have a session around initial data analysis after 6 months of data submitted, lessons, issues, etc.
- Would like solutions on how to integrate RiO and COMMIT
- Escalation of on-going issues with database provider
- Would like follow up tutorial for our area following data submission
- Would like more information about IT
- "Thank you for a good day"
- "Very useful and relevant training day"

LEEDS (05/03/13)

Most Useful Aspects:

- Feedback from other sites and sharing experiences
- Time for questions with MegaNexus and with the team
- Finding out about PbR and clarification on data required

Least Useful Aspects:

- Too long
- Lunch break

Other Comments/Suggestions:

- Data specific events (possibly with MN)
- Events for teams using same databases
- Correct people need to attend event
- PbR team should visit services and speak to clinicians/SUs
- Another event like this following data submission
